

## ACTOIL KO

**ACTOIL KO** is a specially adapted kicking oil for fur skins.

### ANALYSIS

<b>Aspect</b>	: Brown oil
<b>Basis</b>	: Combination of selected fatty substances
<b>Fat content</b>	: 100 %
<b>Light fastness</b>	: Good

### PROPERTIES / ADVANTAGES

**ACTOIL KO** penetrates the pelt deeply and evenly, giving the kicked furs a very soft and pleasant handle.

**ACTOIL KO** components are, in time, getting linked to the fibers, so, the softness stays permanent and does not decrease in time. The dermic substance becomes fuller and even, so, the subsequent thickness adjustment (skiving) can be achieved very precisely.

**ACTOIL KO** is odourless.

**ACTOIL KO** improves lustre of furs and the flexibility of hair shaft is increased.

### APPLICATIONS

**ACTOIL KO** viscosity does not require prior warming-up, although any warming-up will help faster up-take by drumming or kicking.

**ACTOIL KO** fiber linking allows a second step oiling after skiving, thus, giving the utmost softening and fiber stabilising result.

### STORAGE and HANDLING

The product must be stored between 10 and 40°C and, under these conditions; it has a shelf-life of 1 year. Special care should be taken to close the opened drums after use. The viscosity may increase if storage temperature is becoming colder, in opposite, the viscosity may decrease if storage temperature is getting warmer. These slight changes in viscosity will not affect the expected efficiency.
