

ACTYWAX TE

CHEMICAL NATURE

Emulsion of selected natural fats

ACTYWAX TE is generally applied onto any vegetable tanned / re-tanned leather, primarily for the leather goods market.

ACTYWAX TE gives a darkening effect on “hot stamping”, with a nice lightly greasy touch. With the addition of caseins from our **ACTYLUST** range, it will improve the gloss.

ACTYWAX TE will also give the “whitening” effect of traditional “drum stuffed” leather if applied without dilution.

SPECIFICATIONS

Aspect : Off white viscous paste
pH : 7.5 +/- 1
Ionic Type : Anionic
Dilution : In water

STORAGE

The product must be stored between 5 and 35°C and, under these conditions, it has a shelf-life of 1 year. Special care should be taken to reclose the opened drums after use.

Under extreme climatic conditions, the product may slightly separate. Therefore, it is recommended to always stir well before use.
