

SAFECARE

Professional hygiene and cleaning products

OUR HERITAGE

In 2020, faced with the global spread of the Covid-19 pandemic, we responded in solidarity by launching the production of hydroalcoholic solutions in France. Since then, we have expanded our offering with ranges adapted to current needs, such as surface hygiene products, Ecocert-certified formulas, and environmentally friendly solutions.

OUR EXPERTISES

Research & Development

French production

Quality standards

Multiple packaging

Development of eco-responsible formulas

Custom-made
